Communication Best Practices—April 26, 2021

Communication is the key to success in a 4-H program. Key leaders from around the state will share communication techniques that work well for them and how you too can use them to communicate to your club and project members.

CC 4-H Leader's Council Minutes: March 9, 2021

I. Treasurer's Report

- a.) Council Funds
 - i) Leaders Council Checking: \$25,161.22
 - ii) Leaders Council Savings: \$867.18

II. No Bills or Communications

III. Committees

Horse: there is a gymkhana in Encampment this summer, stay tuned for details

Shooting Sports: Archery B class was rewritten, Air Rifle rules were rewritten, PVSS could use another leader

Livestock: new education committee is getting off the ground and planning small events & providing scholarships to other events if 4-H members want to go learn

IV. New Business

- a.) Program Update: in-person 4-H activities are encouraged IF they have social distancing guidelines in place. Masks are still highly encouraged at all 4-H events, but just like before the state mandate, there is no legal repercussion
 - i) Spring: Project Learning Kits, Livestock Judging, Livestock Education events, Camera Corp, Cloverbuds, Minecraft 2.0, Fairgrounds Clean-up
 - ii) Summer: Showcase Showdown, County Shoot, Adventure Days, Equine Fun Day, County Fair (Fair Board asks for increased club participation)
 - iii) MakeHER grant project
 - iv) Jr Leader discussion: Leader's Council heard from Hannah Lee and Caleb Lee about their 4-H experience so far, what they have enjoyed and what could change
- b.) Shooting Sports: Federal .22 order & Midway Range Improvement Grant: there is only one grant available to the entire state of Wyoming. More info will come from the state office on that.
- c.) The Extension Office is looking into hiring an intern for the summer to work on specific programming goals such as livestock judging, clinic organizing, or MakeHER STEM camps

Wyoming 4-H

WHAT SHOULD I BE WORKING ON RIGHT NOW FOR 4-H?

DECIDE WHAT PROJECTS YOU ARE TAKING, AND SET GOALS

PARTICIPATE IN COUNTY OPPORTUNITIES OR WORKSHOPS CENTERED AROUND PROJECTS YOU ARE INTERESTED IN

WATCH FOR ANIMAL SALES

PREPARE FOR PROJECTS BY PURCHASING SUPPLIES, FEED, OR SECURE HOUSING. ASK QUESTIONS, SEEK HELP

ATTEND YOUR CLUB'S MEETINGS FOR UPDATES AND TO ASK QUESTIONS

FINISH ONLINE AND IN-PERSON ADULT LEADER TRAINING

READ AND BE FAMILIAR WITH RULES AND DEADLINES FOR PROJECTS YOU WANT TO TAKE

MARCH THEME:
LEADING LINES

2 PHOTOS PER MONTH MAX!

Monthly contest for feedback and guidance on your photography project!

WHAT IS A LEADING LINE?
Leading lines are lines that appear in a photograph that have been framed and positioned by the photographer to draw the viewer's eye towards a specific point of interest. These lines often draw the viewer's eye in a specific direction or towards a designated portion of the photograph

Submit photos to ehaver@uwyo.edu

The Hampton Inn in Douglas • 307-358-0707**

Platte River PHOTOGRAPHY WORKSHOP

CLASS DESCRIPTIONS

BASIC CAMERA (Beginners) with Chris Luse: Bring your camera and learn about your camera from the inside out, and how to properly expose a photograph using the manual setting.

INTRODUCTION TO PHOTOGRAPHY (Beginners) with Cathy Coddington Becker: Tools you can use today to create beautiful, thoughtful images! One class is not enough to learn everything that goes into telling stories with a camera! However, in this class we will discuss the tools you can use to create beautiful, thoughtful photographs. It doesn't matter if you choose

film, a digital camera, or your iPhone! The timeless concepts are the same and the options are endless. This class will help you get started creating a style of your own and will take your photos from "snapshot to stellar"! A field trip to Washington Park will be an option if the weather permits.

IPHONE CAMERA SETTINGS with Cathy Coddington Becker: iPhone photography is quickly taking over the world, and users are turning out photos that are stunning! Do you feel left behind? No worries! After this quick class you will walk away with tools you didn't know you had, and feel more confident sharing what you create.

WYOMING WILDLIFE with Ron Hayes shares the best practices in photographing Wyoming wildlife in their natural habitat.

WYOMING LANDSCAPE with Sarah Johnson will go over camera settings for different light situations, slow shutter speed situations, high dynamic range and bracketing, and composition. Weather permitting, we will take a short field trip and do most of the class outside and hands on. Students, please bring your film camera or DSLR and let's take some pictures!

INTRODUCTION TO PHOTOSHOP EDITING with expert Shaun Peterson uncovers the capabilities of Photoshop and how to create digital art. Feel free to bring your laptop.

MEET THE INSTRUCTORS

Chris Luse, Manager of Wyoming Camera Outfitters for 9 years, has a Bachelor Degree in Fine Arts Photography from Florida State University and is a former Photography Instructor at Casper College. Chris specializes in not being specialized...he photographs it all!

Ron Hayes started as a Wyoming photographer and has transitioned into photography world wide. He is now one of four hosts on the Wild and Exposed Podcast which is currently the #1 Wildlife and Adventure Podcast on Apple.

Cathy Coddington Becker has been a professional photographer for the past 10 years. Her career has taken her from Victoria, B.C. to Boston, shooting everything from weddings and families, to clothing companies, pharmaceuticals, and cannabis! Her passion is shooting live theatre and she is currently the marketing director for Opera Wyoming in Casper.

Shaun Peterson's landscape images are breathtaking. His gallery, online at smpetersonphotography.com, features fine art images from Wyoming and beyond. He's captured the Milky Way and lightning over Devils Tower and perfect lighting over the Grand Tetons. He also captured totality during the Solar Eclipse of 2017. One look at his website and you will surely want to know some of this photographer's tips and tricks!

Sarah Johnson began shooting in 1996 and developed her own film. In the last 25 years she has studied and shot side-by-side with the world's greatest photographers including Tom Mangelson, Rick Salmon and Jennifer Woo. Her love for landscape and wildlife photography is one in a million and she uses that to educate others.
