# SHEEP Superintendent: Annie Jordan

## What to Expect & Responsibilities:

- Read the fair book but pay special attention to pages 10, 49-50 to know the rules.
- Get to know the superintendents, Hart and Annie Jordan, for any questions you may have about your project during the fair or the weeks leading up to the fair.
- Shear your sheep and check for wool fungus a week or two before the fair. If you suspect they may have wool fungus, wash them with an antifungal shampoo. (highly recommended!)
- Stall assignments will be located on the east and west sides of the sheep barn. You will be grouped with your chapter or club. It is fun to decorate your area. This year's theme is "Stirrup some fun". (Please do not unload until your sheep have been inspected by one of our Carbon County Veterinarian Hospital (CCVH) veterinarians during the specified check-in times on Sunday and Monday morning.)
- All sheep must have their USDA/APHIS Scrapies tag in place.
- The barn will be judged for herdsman ship. This will be awarded to the club or chapter with the cleanest area and best decorations throughout the entire week.
- Keep your stalls clean at all times.
- Keep fresh water in the stalls. You may need to bring some water from home since many lambs do not like the change and refuse to drink. This causes dehydration.
- Another option is to start adding flavoring, such as a light colored Gatorade, in the weeks leading up to fair.
- Feed and exercise daily.
- Check on your lambs throughout the day.
- No drenching. (see the fair book for details about drenching)
- If you are selling a lamb in the Junior Livestock Sale, let Hart or Annie know which animal you will sell, along with their fair ear tag number. (the yellow one) Please have this information to them ASAP but no later than 3:00pm on Wednesday.
- The showman and a parent/guardian will need to sign a consignment form in the fair office in order to sell their animal. You will also need to attach an official title from a Brand Inspector. These are due in the fair office by Wednesday at 3:00pm. These have to be provided in order to sell your lamb.
- Barn closes at 10:00pm every night—no exceptions.

## What to Bring:

- Your lamb that has been slick shorn at least a day or two before coming to fair.
- Blankets must be removed prior to the health inspection by our county vet.
- Halters, muzzles, and blankets. (The muzzles and blankets are optional but highly recommended. Muzzles keep them from eating the bedding as well as grain from another stall, therefore keeping them from getting sick. The blankets keep them cleaner and protects from getting bug bites, etc.)
- A short hose and soap for washing your lamb.
- Clippers and a stand for fitting your lamb.
- Wheelbarrow, shovels, and rakes for cleaning the stalls and the aisle.
- Shavings for the stalls will be provided.

# BEEF Superintendent: James Johnson

## What to Expect & Responsibilities:

- Tip: Clean things as you pack, be organized, and know how to find things easily. Pack your trailer in the order you need to take stuff out. Go set up stalls before bringing cattle in if possible - send a tack trailer and crew ahead. Don't haul cattle in the heat of the day if you can avoid it.
- Make your own beds, dirty shavings dumped outside barn, keep area clean
- We have a lot of animals this year so everyone will need to be mindful of the space you are taking up and keep your area neat and together
- Tie Up/Down Suggestion: plan 4' per calf and bring a normal cattle panel to secure in the front of your stall so you can easily tie them up and down.
- Covering your tie panel with a vinyl tarp helps protect your calf from eating whatever may be in the feed alley and prevents bedding, water, or anything else from getting blown on your calves from your neighbors.
- Fans: when using fans think about where it's blowing dirt and who can hit their head on it (you and your cow). Consider using the fan hanging brackets up front to blow air across the stall from the left side of the cattle (non-show side). If you have the two-piece brackets and want to hang two fans - stand the front one up, let the back one hang.

# BEEF - CONT'D.

## What to Bring:

- feed and hay - calculate how much you need, then add some! Running out at showtime is a disaster. Bring the hay they're used to eating if you can.
- feed pans, water buckets, and water tubs. (for tie-out pens) Start using these at home so they're comfortable eating and drinking out of whatever you're bringing to the show. Communal water tubs = gross. Don't share germs. Get a water filter (RV Section at Walmart) to filter out chlorine and other things. Some people even start flavoring water at home to be able to add that flavor at the show.
- extension cords, 3 way plugs, generator if allowed, fans, brackets, appropriate nuts, washers, bolts, and tools to tighten them. Wire, pliers, hammer...tools. Zip ties. Nylon straps with clips.
- hoses, hose nozzles, wash stuff, blowers & hoses, extra clamps, extra water hose parts
- Poop forks, shovels, metal fork, wheel barrow - all the tools - Mark your stuff. Tape, paint, write your name on everything.
- VET BOX (for kids and calves) - all the basics, Band-Aids, Neosporin, Tylenol, bug bite stuff, thera bloat, electrolytes, THERMOMETER, drench gun, any medications you may need for calves
- PAPERWORK - copy of entry forms, registration papers, health papers, brand papers, show schedule/book, notebook, pens
- Daily care - sheen, combs, brushes, FLY SPRAY, Extra rope halters, NECK TIES
- Show day - PROPERLY FITTING halters, show sticks, harnesses, show attire, Glue, paint, powderful, oil - don't just bank on the old stuff you've drug around for years and have let freeze and get hot. Color match your colored cattle, Breakdown product, good conditioner
- Cooler with drinks, snack box
- Chairs

## Where to Go:

- You may unload where you would like and lead your animal over to the Beef Barn. Unless otherwise specified, all beef events happen in the Multi-Plex.

## When You Need to be There:

- Unload - by 11:00 am on Tuesday
- Meeting - 12:00 pm on Tuesday
- Weigh In - 1:00 pm on Tuesday
- Heifer Judging - 3:00 pm on Wednesday

- If you are selling a steer or heifer in the Junior Livestock Sale, then a consignment form must be filled out and turned into the fair office by Thursday at 3 pm.
- Beef Bills of Sale are due in the Fair Office by Friday @ 11 am

# STATIC INTERVIEW JUDGING

## What to Expect & Responsibilities:

- HOW IT WORKS: All 4-H projects that are not live animals get judged on Sunday in the Exhibit Hall from 9-11 AM.
  - There is no schedule; judges will take first-come-first-serve.
- 1. Check-In at the check-in table to pick up your entry cards. Attach the correct card to each project. (Food Projects: If you have not already done so, also fill out and attach the Food Skills card. )
- 2. Judging: Judges are arranged around the room by the project. Some judges will judge several projects; read the signs behind them. If you have multiple projects, pick the judge who is free first.
- 3. Check-Out: Once your project has been judged, a ribbon color will be attached to it. Bring your project and ribbon to the check-out table where they will record the result. If the project qualified for the state fair you must sign the state fair book stating whether you want Emily to take it to WSF or if you will yourself. Remember to fill out and attach a Static Skills Card!
- 4. Club Booth: Finally, place your project in your 4-H Club booth. When your club decorates their booth, they will arrange the projects for display.
- Please **fill out the static exhibit cards below at home before coming to the fair.** We will have extras in the Exhibit Hall but your answers will be better and more thought out if you do it before!
- Please be considerate of the other 4-Hers who still need to get in to see their judges as you are getting your projects judged. There are many of you and only one judge for your project; be patient!
- AFTER FAIR: Static Projects can be picked up on Friday after 1 PM. If Emily is taking it to State Fair for you, please leave it in the Exhibit Hall. Regardless of whether your project is going to State Fair or not, your ribbons need to be picked up from the Exhibit Hall Friday afternoon after 1 PM. **Any ribbons not picked up will be thrown away.**

## What to Bring:

- Food cards and skill cards printed at home and filled out prior to arrival.
- Your projects ready to display.
- Your best attitude and knowledge about your projects!

## Where to Go:

- You will enter the Exhibit Hall through the double doors on the North side of the building.

## When You Need to be There:

- 4-H Static will happen from 9 am - 11 am on Sunday, July 31st. Please be considerate of our judges and don't show up at 10:50 am with five different projects for your interviews!

# Static Exhibit Ribbons—Explained

The 4-H recognition model is based on awarding youth in 5 different areas: participation, progress toward self-set goals, achievement of standards of excellence, peer competition, and cooperation. Fair is an opportunity for 4-Hers to earn recognition in two of those ways: colored ribbons that compare your projects to standards of excellence, and rosettes that compare your projects to your peers projects.

## Colored Ribbons: The Danish System

After examining the exhibit and interviewing you about your project, the judge will award your project a colored ribbon based on its' quality compared to a perfect standard. How does your exhibit stack up to the standard of excellence for that project?

Excellent—these projects set the standard of excellence or come very close, they will represent our county at State Fair

Very Good—these projects fall just shy of achieving that standard of excellence, a little more work needed to be put in

Good to Fair—these projects are on their way to meeting that standard of excellence but have some work to go

Needs Improvement—these projects will require a lot more learning and work to bring them up to a standard of excellence

## Grand Champion Rosettes

Once ALL exhibits have been judged and awarded a colored ribbon, the Excellent projects are all compared to each other and an Overall Winner is chosen and awarded a multi-colored ribbon as grand champion of that class and age group (Jr, In, Sr)

# STATIC ENTRY CARD

 FILL OUT THIS CARD AND ATTACH IT TO YOUR PROJECT IF YOU CANNOT BE THERE FOR INTERVIEW JUDGING

 THIS IS THE SAME CARD THAT YOU WILL FILL OUT IF YOUR PROJECT QUALIFIES FOR STATE FAIR

Name:	County: CARBON
Project:	
<p>How did you get the idea for your project and what do you like best about it?</p>	
<p>What tools did you use and what skills did you use or learn in making your project?</p>	

## BAD TECHNIQUES!

### STATE FAIR PICTURES

### MAT FRAME or BOARD

Securely attach the photo or drawing to the mat frame or mat board.

Mat Board is a solid piece of thick layered paper pressed into a hard board, they come in many colors and sizes. Mat Frame is the same board with the middle section removed, creating a boarder around the photo or drawing.

PLEASE USE THE FOLLOWING CHART TO SELECT THE SIZE OF YOUR MAT FRAMES:

IMAGE SIZE	MAT SIZE
5" x 7"	8" x 10"
8" x 10"	11" x 14"
11" x 14"	16" x 20"

### DO NOT USE...

Frames— wooden, plastic, metal or any with stands on the backside of the frame. They are heavy and hard to hang. When they fall, they take out all the pictures below them. You are being judged on the "photo" not on it's mounted presentation.

### DO NOT USE...

The following types of tape to hold the strings on the back of your pictures! Masking tape, duct tape, strapping tape, packaging tape, double-sided tape or blue painters tape. They all weaken due to the humidity and heat of the summer days.  
**\*\*Suggested Use: Strong, clear, Scotch Tape completely securing the parameter of the whole photo!**

### DO NOT USE...

Weak thin string, yarn, embroidery floss, fishing line, pipe cleaners, coat hangers, ribbon, press-in hooks, or kite string.  
**\*\*Suggested Use: Strong thick string or framing wire!**

### YOUR PHOTOS AND DRAWINGS ARE BEING JUDGED, NOT THE METHOD OF DISPLAY!

While a nice frame adds character to your photo or drawing, your entry is only being judged on the picture alone. Save your frame until you get the entry home and then use it!

### HANGING METHODS:

You can punch holes in the corner of the Mat Board and thread thick strong string or wire through the holes to create a hanger or punch a hole in the center of the frame with a hole big enough for a peg board hook. (hole at least .365")

**NOTE: PEG BOARD HOOKS ARE USED AT COUNTY AND STATE FAIR! Keep that in mind when putting hangers on your pictures.**

# PHOTOGRAPHY & VISUAL ARTS

## PREFERRED METHODS FOR DISPLAYING PHOTOS AND DRAWINGS AT FAIR

### ADDITIONAL HANGING METHODS:

You can also use solid Mat Board or Foamboard to mount your photos or drawings. Make sure your photos or drawings are affixed to the mounting board properly!

**DO NOT USE DOUBLE SIDED TAPE!!!**
