Sheep

Superintendent:
Annie Jordan

What to Expect & Responsibilities:

- Get to know the superintendents, Hart and Annie Jordan, for any questions you may have about your project during the fair or the weeks leading up to the fair.
- Shear your sheep and check for wool fungus a week or two before the fair. If you suspect they may have wool fungus, wash them with an antifungal shampoo. (highly recommended!)
- Stall assignments will be located on the east and west sides of the sheep barn. You will be grouped with your chapter or club. It is fun to decorate your area. This year's theme is "Fair-adise". (Please do not unload until your sheep have been inspected by one of our Carbon County Veterinarian Hospital (CCVH) veterinarians during the specified check-in times on Sunday and Monday morning.)
- All sheep must have their USDA/APHIS Scrapies tag in place.
- The barn will be judged for herdsman ship. This will be awarded to the club or chapter with the cleanest area and best decorations throughout the entire week.
- Keep your stalls clean at all times.
- Keep fresh water in the stalls. You may need to bring some water from home since many lambs do not like the change and refuse to drink. This causes dehydration.
- Another option is to start adding flavoring, such as a light colored Gatorade, in the weeks leading up to fair.
- Feed and exercise daily.
- Check on your lambs throughout the day.
- No drenching. (see the fair book for details about drenching)
- If you are selling a lamb in the Junior Livestock Sale, let Hart or Annie know which animal you will sell, along with their fair ear tag number. (the yellow one) Please have this information to them ASAP but no later than 3:00pm on Wednesday.
- The showman and a parent/guardian will need to sign a consignment form in the fair office in order to sell their animal. You will also need to attach an official title from a Brand Inspector. These are due in the fair office by Wednesday at 3:00pm. These have to be provided in order to sell your lamb.
- Barn closes at 10:00pm every night—no exceptions.
- Showmanship is it's own show and own entry!

What to Bring:

- Your lamb that has been slick shorn at least a day or two before coming to fair.
- Blankets must be removed prior to the health inspection by our county vet.
- Halters, muzzles, and blankets. (The muzzles and blankets are optional but highly recommended. Muzzles keep them from eating the bedding as well as grain from another stall, therefore keeping them from getting sick. The blankets keep them cleaner and protects from getting bug bites, etc.)
- A short hose and soap for washing your lamb.
- Clippers and a stand for fitting your lamb.
- Wheelbarrow, shovels, and rakes for cleaning the stalls and the aisle.
- Shavings for the stalls will be provided.

Beef

Superintendent:
Tyson Cobb

What to Expect & Responsibilities:

- Tip: Clean things as you pack, be organized, and know how to find things easily. Pack your trailer in the order you need to take stuff out. Go set up stalls before bringing cattle in if possible - send a tack trailer and crew ahead. Don't haul cattle in the heat of the day if you can avoid it.
- Make your own beds, dirty shavings dumped outside barn, keep area clean
- We have a lot of animals this year so everyone will need to be mindful of the space you are taking up and keep your area neat and together
- Tie Up/Down Suggestion: plan 4' per calf and bring a normal cattle panel to secure in the front of your stall so you can easily tie them up and down.
- Covering your tie panel with a vinyl tarp helps protect your calf from eating whatever may be in the feed alley and prevents bedding, water, or anything else from getting blown on your calves from your neighbors.
- Fans: when using fans think about where it's blowing dirt and who can hit their head on it (you and your cow). Consider using the fan hanging brackets up front to blow air across the stall from the left side of the cattle (non-show side). If you have the two-piece brackets and want to hang two fans - stand the front one up, let the back one hang.
- Showmanship is it's own show and own entry!

Beef – Cont'd.

What to Bring:

- Feed and Hay – calculate how much you need, then add some! Running out at showtime is a disaster. Bring the hay they're used to eating if you can.
- Feed pans, water buckets, and water tubs. (for tie-out pens) Start using these at home so they're comfortable eating and drinking out of whatever you're bringing to the show. Communal water tubs = gross. Don't share germs. Get a water filter (RV Section at Walmart) to filter out chlorine and other things. Some people even start flavoring water at home to be able to add that flavor at the show.
- Extension cords, 3 way plugs, generator if allowed, fans, brackets, appropriate nuts, washers, bolts, and tools to tighten them. Wire, pliers, hammer...tools. Zip ties. Nylon straps with clips.
- Hoses, hose nozzles, wash stuff, blowers & hoses, extra clamps, extra water hose parts
- Poop forks, shovels, metal fork, wheel barrow – all the tools – Mark your stuff. Tape, paint, write your name on everything.
- VET BOX (for kids and calves) – all the basics, Band-Aids, Neosporin, Tylenol, bug bite stuff, thera bloat, electrolytes, THERMOMETER, drench gun, any medications you may need for calves
- PAPERWORK – copy of entry forms, registration papers, health papers, brand papers, show schedule/book, notebook, pens
- Daily care – sheen, combs, brushes, FLY SPRAY, Extra rope halters, NECK TIES
- Show day – PROPERLY FITTING halters, show sticks, harnesses, show attire, Glue, paint, powderful, oil – don't just bank on the old stuff you've drug around for years and have let freeze and get hot. Color match your colored cattle, Breakdown product, good conditioner
- Cooler with drinks, snack box
- Chairs

Where to Go:

- You may unload where you would like and lead your animal over to the Beef Barn. Unless otherwise specified, all beef events happen in the Multi-Plex.

When You Need to be There:

- Unload – by 11:00 am on Tuesday
- Meeting – 12:45 pm on Tuesday

Static Interview Judging

What to Expect & Responsibilities:

- HOW IT WORKS: All 4-H projects that are not live animals get judged on Sunday in the Exhibit Hall from 9–11 AM in four steps:
 1. Check-In: At the check-in table pick up your pink entry cards. Attach the correct pink entry card to each corresponding project using tape, string, or a stapler.
 2. Judging: Judges are arranged around the room by the project. Some judges will judge several projects; read the signs behind them. If you have multiple projects, pick the judge who is free first. There is no schedule; judges will take first-come-first-serve.
 3. Check-Out: Once your project has been judged, a ribbon color will be attached to it. Bring your project and ribbon to the check-out table where they will record the result. If the project qualified for the state fair (purple ribbon) you must sign the state fair book stating whether you want Emily to take it to WSF or if you will take it yourself. Remember to fill out and attach a Static Skills Card!
 4. Club Booth: Finally, place your project in your 4-H Club booth. When your club decorates their booth, they will arrange the projects for display.
- If your project qualifies with a purple ribbon for State Fair, **fill out a static exhibit card and attach it securely.**
- Please be considerate of the other 4-Hers who still need to get in to see their judges as you are getting your projects judged. There are many of you and only one judge for your project; be patient!
- AFTER FAIR: Static Projects can be picked up on Friday after 1 PM. If Emily is taking it to State Fair for you, please leave it in the Exhibit Hall. Regardless of whether your project is going to State Fair or not, your *ribbons* need to be picked up from the Exhibit Hall Friday afternoon after 1 PM. **Any ribbons not picked up will be thrown away.**

What to Bring:

- Skill Cards printed at home and filled out prior to arrival.
- Your projects ready to display.
- Your best attitude and knowledge about your projects!

Where to Go:

- You will enter the Exhibit Hall through the double doors in the middle of the building, then take a right into the West Wing (open class is in the East Wing)

When You Need to be There:

- 4-H Static Judging will happen from 9 am – 11 am on Sunday, August 3rd. Please be considerate of our judges and don't show up at 10:50 am with five different projects for your interviews!
- HORSE SHOW PARTICIPANTS – your static project interviews are at 8:30 am, before everyone else!

Example questions judges may ask during an interview:

Tell me about your project!

Modified Danish Ribbon System

The Danish System is a widely used system in 4-H across the nation. This system provides maximum recognition for our 4-H members

The purpose of the system is to recognize each participant's work based on its merit and provide constructive feedback for improvement.

PURPLE

Represents exhibits or entries that exceed the goals, standards, or requirements. These exhibits are outstanding work that goes beyond goals, standards, or requirements.

BLUE

Represents exhibits or entries that closely meet or exceed the goals, standards, or requirements. These exhibits or entries may still have one or two minor things that need improvement.

RED

Represents exhibits or entries that meet the minimum goals, standards, or requirements. These exhibits or entries may have some deficiencies or areas for improvement.

WHITE

Represents exhibits or entries that fall below the expected goals, standards, or requirements. These exhibits or entries have considerable deficiencies or areas for improvement.

The Danish Ribbon System addresses all five C's in Positive Youth Development:

- **COMPETENCE:** Encourages skill development through personalized evaluation
- **CONFIDENCE:** Builds self assurance by recognizing individual accomplishments
- **CONNECTION:** Fosters a sense of belonging by valuing each participant's efforts
- **CHARACTER:** Promotes integrity and responsibility through self assessment
- **COMPASSION:** Encourages empathy and support amongst peers in a non-competitive setting

When these five C's are present a sixth C emerges, Contribution. Empowering youth to actively give back to their communities.

VARIES

In addition to a Danish ribbon both Judge's choice (an exhibit that is selected by the judge for other reasons) and the American System of Champions and Reserve Champions can be added to the Danish System
