APRIL 2023

Can proper management of meadows naturally release nitrogen from the system for increased plant growth?

Research indicates it's possible.

<https://bit.ly/meadow-soil>

Find out more about UW's ongoing Mountain Hay Meadow research and how we are improving our understanding of stored Nitrogen

This past fall, several Sublette County producers volunteered to have their hay fields sampled as part of an ongoing study on soil Nitrogen release in high elevation meadows. Though the data isn't yet available to us, this article by the same research team explains the principles behind their work and includes some cool data from previous studies. APRIL 2023

CATTLE AI EDUCATION AND BREEDING

Have you considered Artificial Insemination for your 4-H or FFA cattle but feel you or your kids need some more info? Check out this education series hosted by Fremont and Campbell Counties. There will be an in-person class and two dates where cattle can be brought and bred for a small fee. Though geared to a younger audience, everyone is welcome! RSVP by April 21st at <http://tiny.cc/23cattleai>. [Click HERE](#) for more info

UW EXTENSION'S NEW TOXIC PLANT YOUTUBE SERIES

If you are concerned that your livestock or wildlife in your area may be at risk of consuming toxins while grazing, check out this new video series by UW Rangeland Specialist Derek Scasta. Topics cover death camas, pine needle abortion, grass tetany and more, with more to be made available soon. Click the image to the right to visit the channel!

Sublette County's New 4-H Educator Meet & Greet, April 28th

Tierra, our new 4-H Educator, will be starting next week. Mark your calendar for April 28th. This will be her first day here, and we will be hosting a casual meet & greet for anyone looking to get to know her and help her learn more about our 4-H program. This will be held at the Extension office from 4 to 5 pm!

APRIL 2023

WYOMING VEGETABLE GUIDE

The time of year is approaching when many will consider putting in a garden or preparing one they already have. Wyoming is a challenging place to successfully grow vegetables. UW Extension provides a great resource full of advice for maximizing garden output in the Cowboy state! Click the image at left to access!

BEST ORNAMENTAL TREES TO PLANT IN WYOMING

Western Wyoming can be a tough place to grow ornamental trees. Check out this UW publication for recommendations for the best tree species to plant on your property. [Click HERE!](https://bit.ly/UW-tree-planting)
