2024 Green River Valley Rancher's Workshop

GREEN RIVER VALLEY RANCHER'S WORKSHOP

The 2nd Green River Valley Rancher's Workshop will be held on December 4th, from 9am to 4pm at the Sublette County Extension Office. This year will cover a wider array of topics. Presentations will include mineral nutrition, cow herd management, beef market outlooks, Livestock Risk Protection (LRP), heifer development, and forage estimation tools. Speakers will include several Extension Educators and UWE Specialists. If you are interested or know of anyone who may be, [click the icon](#) above to RSVP online or call/email the Extension office at [\(307\) 367-4380](tel:3073674380) or dmontgo8@uwyo.edu to let us know how many will be attending. This is a completely free event, but we do ask for RSVPs so that we can plan lunch accordingly. A finalized agenda will be sent out soon. We look forward to seeing you!

OCTOBER 2024

SOUTHEAST WY BEEF SYMPOSIUM

The South-East Wyoming Beef Symposium & Trade Show is an event dedicated to the cattle industry, bringing together ranchers, producers, and industry professionals from across the region. This biannual symposium offers a vital platform for knowledge exchange, professional development, and community building within the beef industry. This is open to anyone interested and will cover a widely applicable array of topics. View the website and registration by clicking the icon at left!

UWE WEED TREATMENT OPTIONS PUBLICATION

Ever wonder if you are treating the weeds on your property in the most effective manner? This recently published resource from Abby Perry, Carbon County Extension Educator, details what exact treatments will work for particular weed species. This includes a table that list common problem plants and which methods work for control, which work to some degree, and which don't work at all, based on the species. NAVIGATING DROUGHT IN WYOMING

It has been a dry and hot summer for many Wyomingites, and the fall has so far followed suit. UWE has several resources available to help producers and homeowners deal with dry conditions. By clicking the icon to the left, view Brian Sebade's comprehensive book on how we can address drought issues and what options are available to mitigate these. Click below to explore other bulletins that address drought mitigation and management options from UWE.
