

Jackson Hole Community Garden Membership Rules

- **HOURS OF OPERATION** – The garden is open officially from May 1 through October 1 from dawn until 9 pm. Please respect these hours, as we want to be a good neighbor to all the Cottonwood Park residents.
- **PARKING** – PLEASE PARK IN THE MIDDLE SCHOOL LOT AND NOT ON BLAIR DRIVE.
- **HOSES** – Please be aware of hoses and water use. We pay for the water we use.
- **CHILDREN** - Please do not leave your children unattended in the garden.
- **GARDEN PLOT MAINTENANCE** – Please keep your plot maintained. You are responsible for the weeds in and around your own garden plot. Remember that when weeds in your plot go to seed, they spread throughout the whole garden. Veggies should be harvested as they become ripe. This will limit vandalism, and keep the garden looking nice. Plots that are not planted and harvested throughout the season (neglected) will be reassigned the following year.
- **VOLUNTEER HOURS** – We are requiring that each garden member volunteer 5 hours of community time over the summer. PLEASE SELECT COMMITMENT UNDER SITE MAINTENANCE REQUIREMENT ON REGISTRATION FORM. Gardeners that do not participate over the summer will have their plot reassigned next year.
- **OVERALL MAINTENANCE** – Please maintain the pathways immediately adjacent to your plot – keep them free from garbage and weeds.
- **GARBAGE** – We have a garbage can by the shed, however it fills fast. Please take trash out with you, if you can.
- **INSECTICIDES AND HERBICIDES** – The Community Garden is maintained in an organic manner – therefore, the use of insecticides made from synthetic chemical materials is strictly prohibited in the plots.
- **RADIOS** – Radios are prohibited in the garden. Please wear headphones if you want to listen to music.
- **DOGS** – Dogs are not allowed in the garden unless they are kept leashed and at your own plot, or tied to the shed. Please respect the other gardeners and our neighbors. Please scoop your dog's poop!
- **HEIGHT RESTRICTIONS** – Please consider the fact that you will be shading your neighbors' garden if you have structures in your garden that are over 6" tall.
- **COMPOST** – There is currently an informal compost area next to the shed. Please put only garden refuse in this pile. There is more information about composting posted in the shed.
- **NO SMOKING IN THE GARDEN** – Tobacco can transmit a lethal disease to tomatoes. Please smoke outside the garden fence if you need to.
- **INFORMATION BOARD** – You are responsible for reading the board, as this is where notices will be posted.
